REFIMA

WE SHAPE YOUR IDEAS

COMPANY PRESENTATION

REFIMA IN NUMBERS:

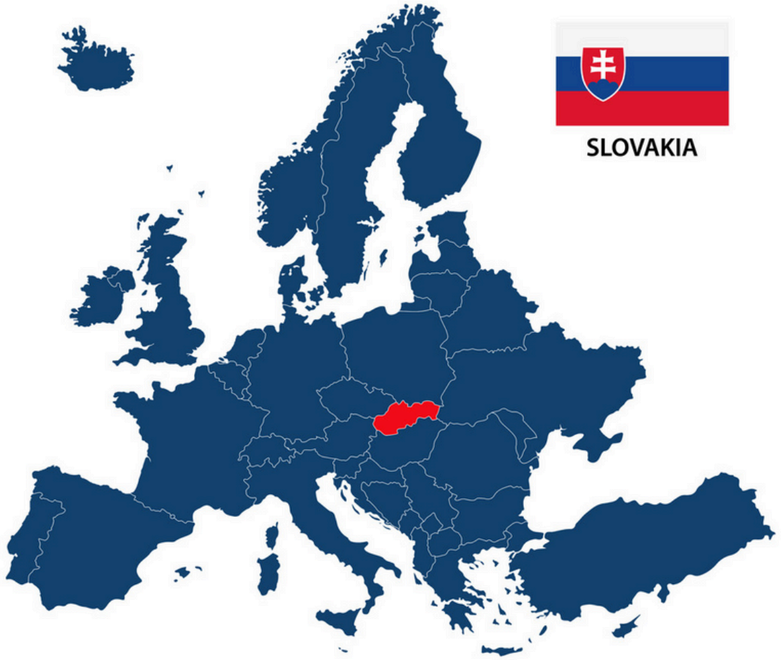

- Established in 2008
- 50 people
- 3,6 mil. € (2023)
- 60% domestic / 40% export (38 countries)

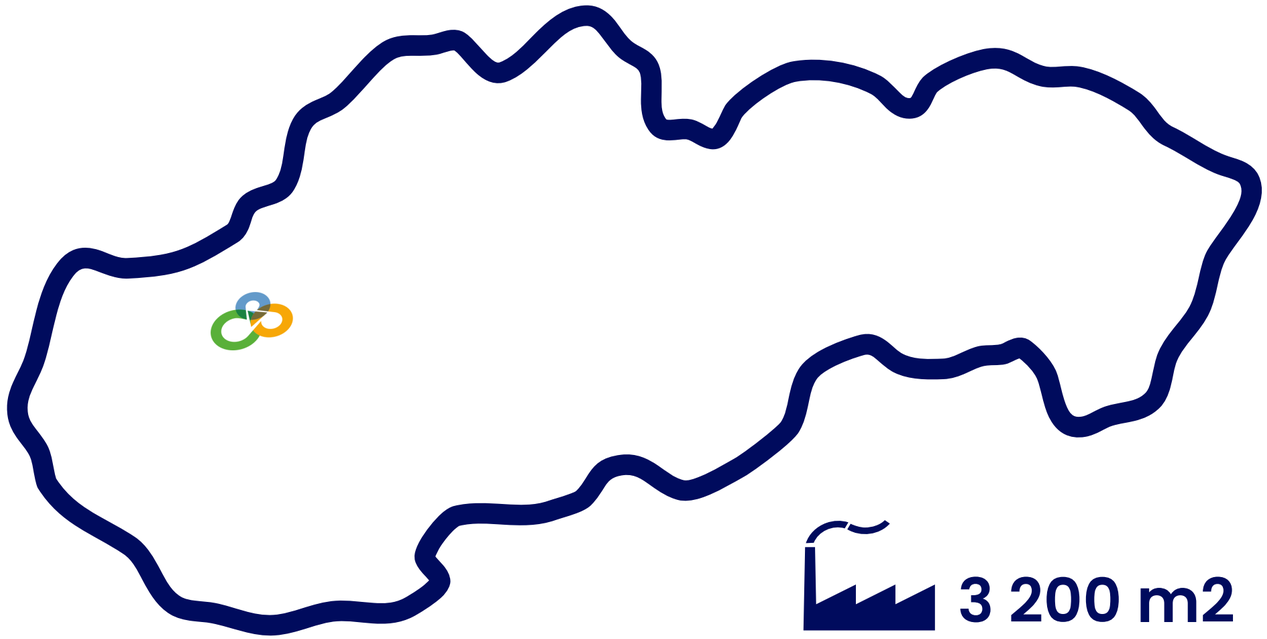

AREAS WHICH WE SERVE:

- Sealings / gaskets
- Sound insulation
- Thermal insulation
- Bonding by adhesive tapes
- Surface protection

LOCATION

Slovakia – Považany

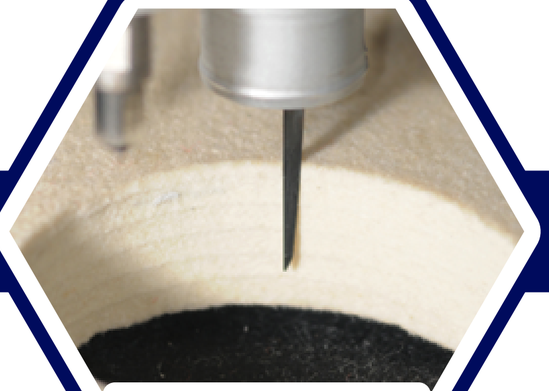

3 200 m2

PRODUCTION CAPABILITIES

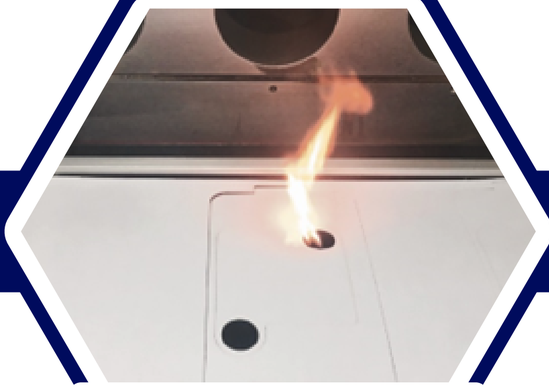

CNC cutting by cutters
3 machines

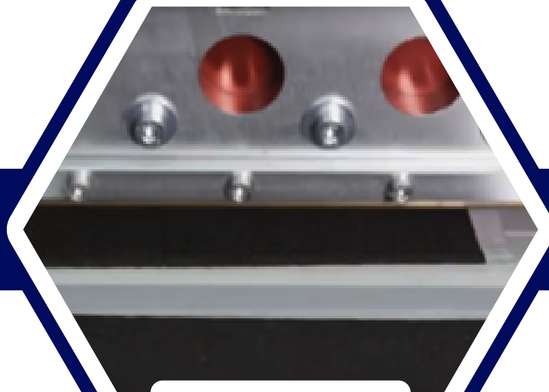

Die-cutting
1 machine

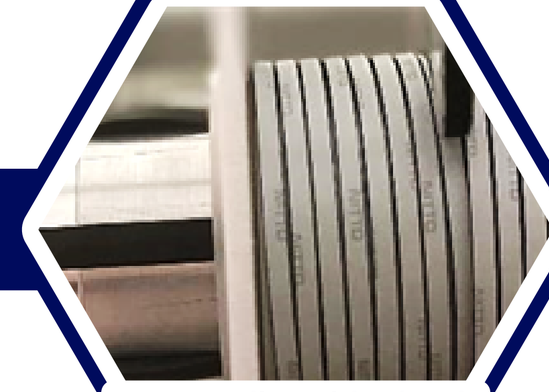

Kiss-cutting
2x flatbed / 2x rotary

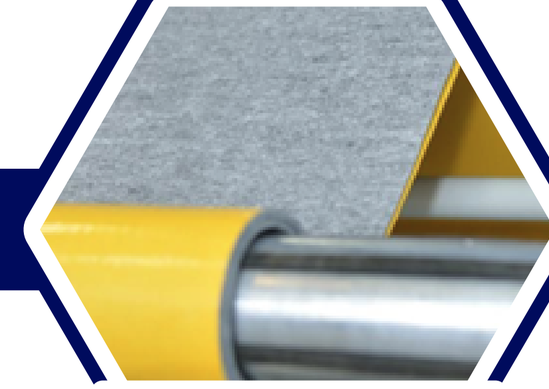

Hybrid - laser / rotary system
1 machine

Guillotine cutting
1 machine

Tape spooling with 6 heads
1 machine

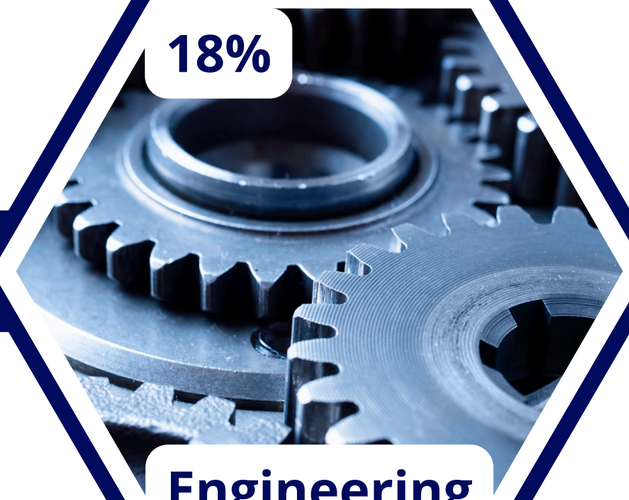

Lamination of adhesivetapes
2 machines

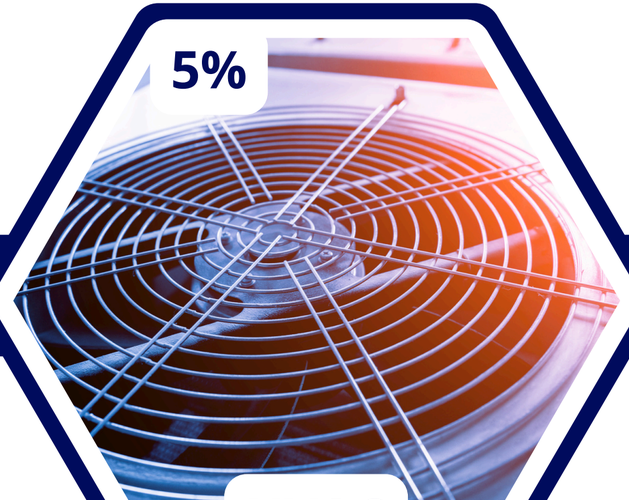

Slitting
2 machines

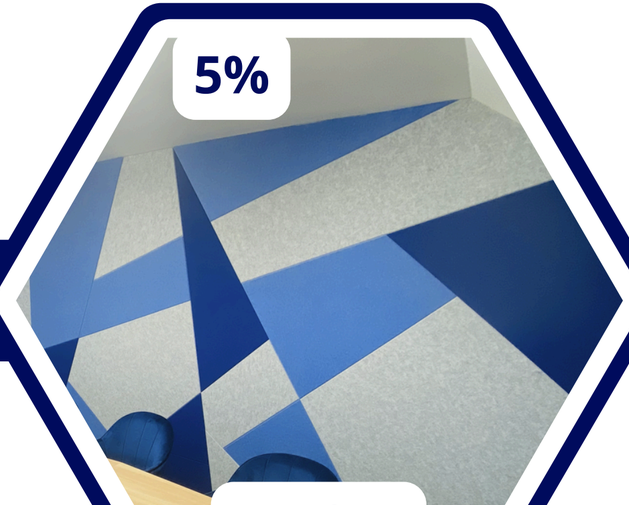

MAIN MARKETS

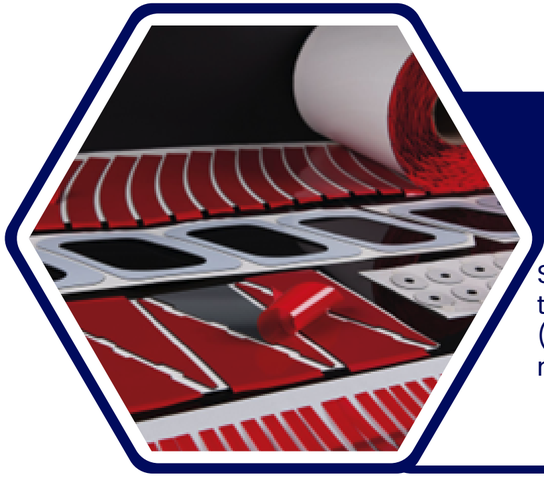

SOLUTIONS FOR CUSTOMERS

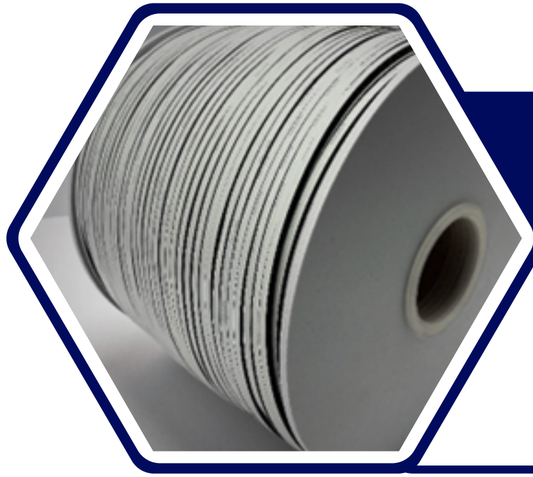

AUTOMOTIVE

CUT PARTS FROM ADHESIVE TAPES

Stickers for connecting plastic, textile and foam components (rear-view mirrors, seats, door modules, dashboard, ...

MAGNA

ENDLESS COILS - SEALINGS / GASKETS

Endless coils of belts made of foam, textiles with or without adhesive surface for robotic workstations (spoiler, speakers, etc...)

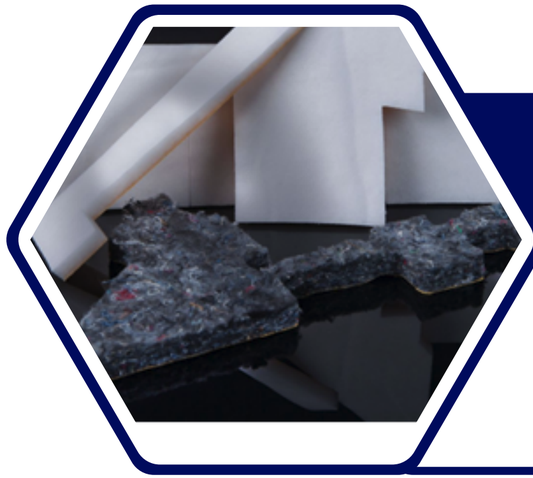

ADIENT

FOAM SEALS

Cut-outs from foams, used for seals preventing the penetration of water, air, and noise

mergon

ACOUSTIC INSULATION

Cut-outs from insulating textile and felt materials to improve acoustics and sound comfort

ITW

SOLUTIONS FOR CUSTOMERS

ENGINEERING

FELT TAMPONS

Felt mats for applying resin to steel cords and for cleaning steel wires

BEKAERT

VACUUMSCHMELZE

FELT STRIPS

Felt belts used for braking and cleaning steel coils

ArcelorMittal

Gonvarri Steel Services

FELT TUBES AND ROLLERS

Felt components for applying paints, varnishes, primers

doka

SELF-ADHESIVE FOAM PADS

Cut-outs from foams used in the production of tools (surface protection, seals, ...)

wolfcraft®

SOLUTIONS FOR CUSTOMERS

ELECTRONICS, HVAC

DRYERS AND WASHING MACHINES SEALS

Felt strips used with rubber seals to prevent creaking and reduce energy

oldratigroup RUBBER & PLASTIC GOVERNANCE

SEALS FOR HEAT PUMPS AND BOILERS

Foam components used in pumps and boilers for heat and sound insulation

STIEBEL ELTRON

FILTER SEALS

Self-adhesive foam strips and components used in filtration devices and units

VOLZ FILTERS PROTECT YOUR AIR

AAF INTERNATIONAL

DELTRIAN

COMPONENTS FROM ADHESIVE TAPES

Cut-outs from self-adhesive tapes for fixing and connecting different substrates

FOXCONN

2J antennas

SEC Lighting

COOPERATION BENEFITS

FAMILY RUNNIG COMPANY = OPEN DISCUSION

We always find solution with benefits for both sides with pro-active customer support

FLEXIBILITY

Immediate solutions and preparation of the project to the customer's needs = the customer is able to make decisions faster

KNOW-HOW

15 years of experience in the developing and production of components = safety and protection for the customer

INNOVATION

Annual investments in improving of processes and technologies = better profit for customers due to new technologies

DEVELOPMENT

We start from product development, through the production of prototypes, to serial deliveries = customer gets support in every phase of the project

REFIMA

PLANS FOR FUTURE

Company goals for the next 5 years

2024
INVESTMENTS IN NEW TECHNOLOGIES

- Plan to buy two new machines for cutting
- Digitization of the production process

2024
IMPLEMENTATION OF IATF 16 949

- Plan to implement a management system in automotive

2024
EXPANDING THE BUSINESS

- The plan is to find a direct sales representative in neighboring countries and expand cooperation with potential companies

2025
CREATION OF R&D

The plan is to create an own R&D department with the aim of focusing on the development of technically demanding solutions

2025
IMPLEMENTATION OF ISO 14001

Plan to implement environmental management system

2027
NEW PLANT

Plan to build a new plant with an area of approx. 5,000 m2

REFIMA

THANK YOU

LOOKING FORWARD TO COOPERATION
